Today is Edith Gardner's birthday.

July 8, 1985

Dear Chief,

Things up here in the North Woods have not been the same since you migrated South. Just where have you put up your new teepee?

The "Indians" (listed on the opposite page) miss seeing you around the camp fire, and wish →

Slept late; was exhausted from the day and days of anxiety and work.

It appears that we have taken up residence in the box at the SW corner of the Cemetery. Is this a new pair in the area? Is it one of the two former nesting pair in a new location for a second setting/nesting? Whatever the case, I am delighted.
